Manuel Onora: I would like us to discuss the software development process we forward with Smart Mini solution. Last meeting we talked about some few key things such as integrating some features, right? Like notification features and then optimizing the dining flows for the customer up.

Full Transcription

Ok, hi, my name is Manuel Onora and today's photo day is meeting. I would like us to discuss the software development process we forward with Smart Mini solution. Last meeting we talked about some few key things such as integrating some features, right? Like notification features and then optimizing the dining flows for the customer up and then giving the feature to use all done. Given the feature to print received from on the customer with up true with use of Bluetooth printers because all we have already leverages on Wi-Fi printer. No, one with up you know to accept Bluetooth printers as well. So for this meeting I would like especially to speak regarding that to know what the progress with that is. I think that will be all for now. Thank you and I will meet myself and let's hear that person speak. Thank you. Ok, so I haven't heard all they have to say.

I guess we will reconvene next week Monday and I'll be discussing update from everybody regarding the features that I discussed earlier. Thank you..
